

Pier Augé®

THE SKIN'S MEMORY

OUR STORY

The brand Pier Augé was created **60 years ago** by Pierre-Jules Augé in Monaco. A forward-thinking chemist, he developed a unique and exclusive concept, **the Base Dergyl : an emulsion with the same nature, structure and composition as the skin** to first address its wife's sensitive skin problems.

« **As skin is a formula, it shall be possible to reproduce it** »

Today, Pierre-Jules Augé's words still ring in our company, now settled since 1967 in Châteauroux. We are still stripping for the **best molecules** in our formulas in order to meet the current and future needs of our customers throughout the world. Pier Augé is still **100% Made in France.**

OUR UNIQUE CONCEPT: **THE BASE DERGYL**

In 1961, scientists demonstrated that the skin was an **emulsion** composed of **proteins, lipids, vitamins, water and mineral salts**. Fascinated by this discovery, Pierre-Jules Augé understood **these elements cannot be separated from each other**, that the skin has its own specific needs and only corresponding molecules can maintain its functions and restore it. He decided **to reproduce the skin's formula** as the base of his cosmetics and developed the **Base Dergyl : an emulsion of same structure, same nature and same composition of the skin**.

THE SKIN'S **MEMORY**

The Base Dergyl is developed **to boost skin's natural functions** while respecting it with the best molecules

- The skin is armed to act on all fronts
- The skin is tonified, protected and energized
- The skin is capable of fighting ageing

Pier Augé's product are the skin's memory, because **each product reminds the skin that it hold everything to defend and repara itself naturally.**

In all the brand treatments, the molecular composition takes into account the concept of the Base Dergyl. **By giving the skin its specific needs, every product of Pier Augé ensures the perfect equation between skin's formula and the selected product's formula.** Our products respect the skin, respect its natural functions and provide it the most advanced and adapted formulas.

OUR GOAL: PROVIDING INNOVATIVE SKIN CARES WHILE RESPECTING THE SKIN'S NATURAL BALANCE

With more than 180 formulas, Pier Augé imposes itself for almost 60 years as an innovator into the cosmetic world. The CNRS and the ANVAR awarded some of our **exclusive patents as the exceptional combination of Hp DNA and Hyaluronic Acid**. The Hp DNA (or highly polymerized DNA), highly used in our products, is well-known for its antioxidant, moisturizing and regenerating benefits. The Hyaluronic acid, is known for its moisturizing and anti-aging benefits.

By giving the skin its specific needs, Pier Augé reminds it that it holds everything to protect itself, and maintains its integrity.

HP DNA IN PIER AUGÉ'S PRODUCTS

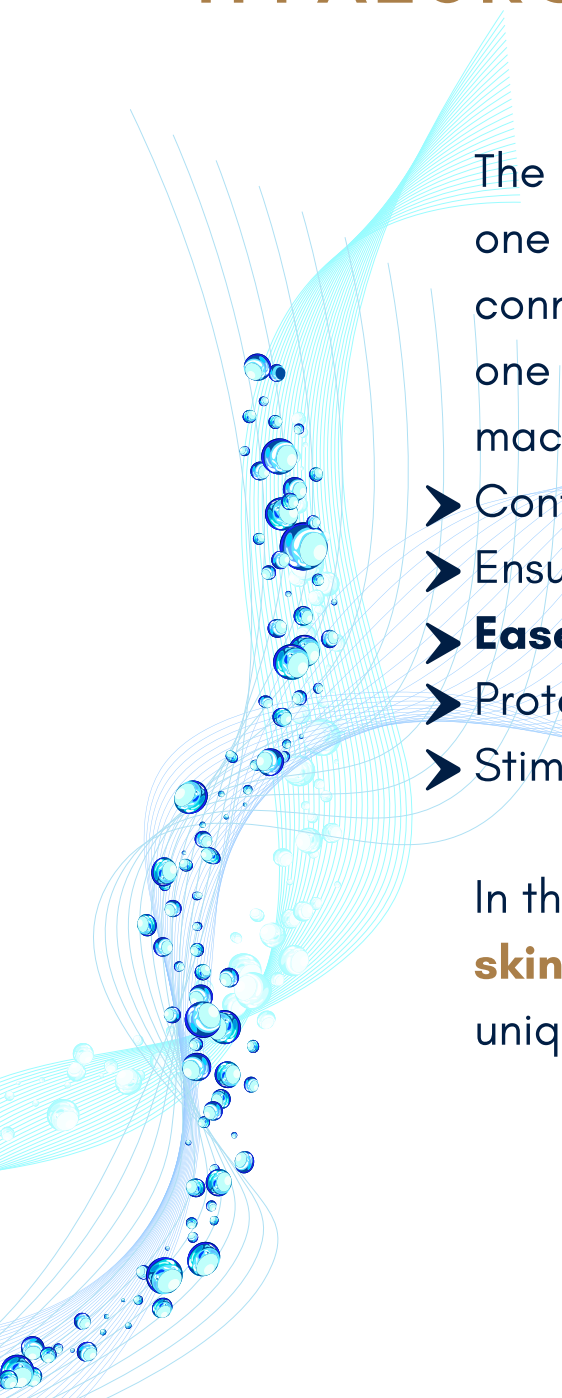

HP DNA : Natural macromolecule that is located in the nucleus of each cell, the DNA is found in every living organism. It plays an essential role in protein biosynthesis. By being at the origin of every cell life, it is a the **origin of every vital process**:

- HP means highly polymerized or **molecularly intact**, because the DNA have to be molecularly intact to be effective and to transmit informations
- The big fundamental process of living cells messages: **proteins biosynthesis**, energy metabolism
- **Antioxydant, regenerating, revitalizing, healing**
- Hydrophilic, moisturizing : **maintains water into tissues**
- Absorbs uv radiation (responsible for burning and ageing)
- **Protects cell DNA**: facilitates DNA biosynthesis and ensures DNA structure of the nucleus
- Controls the sebaceous function : **the hydrolipidic film is balanced**

In Pier Augé's products, we use HP DNA in order to address the lack of proteins and water in the skin.

HYALURONIC ACID IN PIER AUGÉ'S PRODUCTS

The hyaluronic acid **ensures the connective tissue's structure** because it is one of the main fundamental components of the dermis (up to 0,7% of the connective tissue). Able to carry up to **1000 times its weight in water**, it is one of the most moisturizers used to tonify fibers. It creates a visco-elastic macromolecular array to :

- Controls the **hydration** level inside the dermis
- Ensures the cutaneous tissues' **tone**
- **Eases** the collagen fibers sliding
- Protects the subcutaneous **tissues**
- Stimulates and **tonifies** elastic fibers

In the Pier Augé's products, **we use hyaluronic acid in order to address the skin's lack of proteins and water**. We also have an exclusive patent on the unique combination of hyaluronic acid and Hp DNA.

OUR EXPERIENCE

PIER AUGÉ PLACES THE SKIN'S FORMULA IN THE HEART OF ITS BALANCE

Skin's balance is based on a combination of ingredients. The only way to offer effective treatments is to respect this formula. For this reason, Pier Augé created the Dergyl base, a formula at the heart of its care process. Combining proteins, carbohydrates, vitamins, water and mineral salts, it adapts the dosing and selection of active ingredients as needed.

- The skin is a precious capital : The skin is a complex, living ecosystem with a structure and a specific composition. Its unique biological features constitute a living capital that it is important to take care of at every moment. Because it undergoes changes due to climate, age, hormonal system, it is essential to protect it with great attention.
- An intimate brand: our brand knows how to create this unique moment in which one feels listened to, accompanied and advised. It brings in the care a particular relational approach, a little more, close to the comfort and concern towards the client who feels considered. This approach is found in its products, its soft textures, which one enjoys to manipulate for oneself.

OUR EXPERIENCE

- The elegance of an absolute treatment: Pier Augé seeks the creation of a form of elegance felt in each of its actions. The brand takes in account its client with a total benevolence and a refined accompaniment of each.
- The pharmaceutical know-how at the service of beauty: Pier Augé uses all his know-how and pharmaceutical expertise to serve a beauty goal for everyone. Each composition, each prescription, each gesture, is part of this search for beauty for oneself and for the people we love to accompany.

OUR DISTRIBUTION CHANNELS

A **WORLDWIDE** DISTRIBUTION

Pier Augé is distributed among **23 countries** and in the world for many years now. We succeed in establishing **long-term partnership** with our distributors. Our products, because of their composition and structure, **may be suitable for different skin types**, thus can meet the needs of many different countries.

Today, we are doing our utmost to develop our international **brand image** and to support our distributors to share an easy and clear positioning to their partners.

Pier Augé is distributed in **450 stores in the world**. Since our inception, we've been offering professional products in addition to our classic retail products for beauty salons. Today, we aim to expand our distribution of our classic range to beauty stores and pharmacies. We are doing our best to establish a **long-term sell-out strategy** with our partners and plan to develop some **online training** for our beauticians.

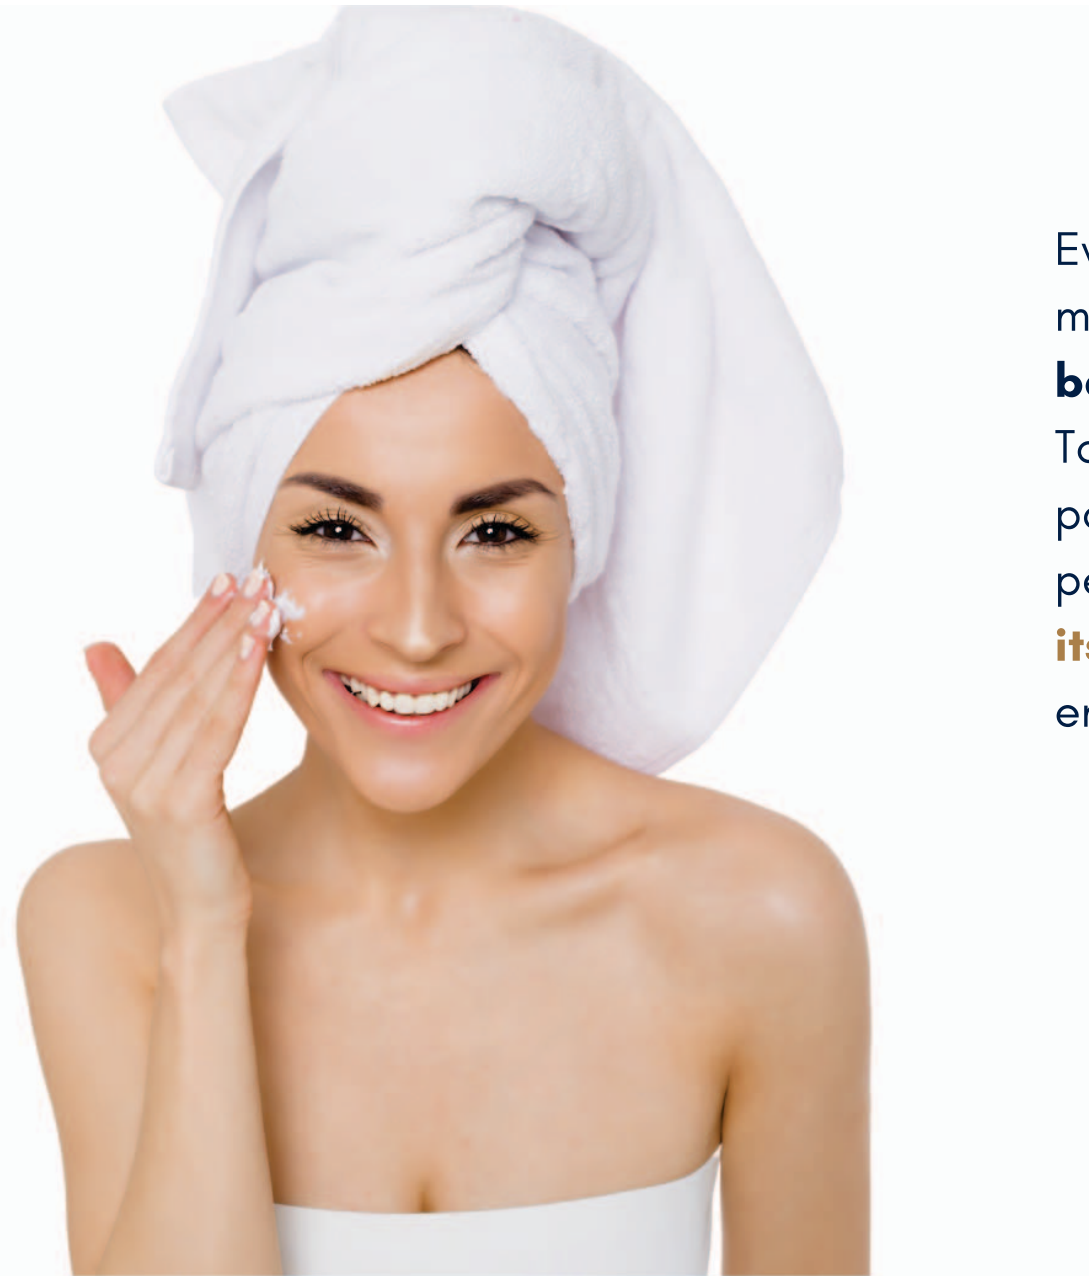

We aim to set up an **ambassador network** among our partners in order to work together and think about the future of cosmetics, and the possible **innovations** in terms of treatment protocols.

A MULTI-CHANNEL DISTRIBUTION

OUR PRODUCTS

FACIAL CARE

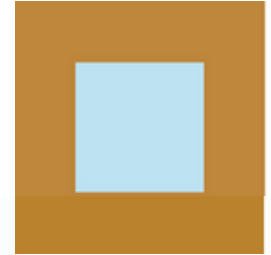

Everyday, your skin is subject to multiple aggressions disrupting its **natural balance**.

To preserve this **balance** and its own potential, Pier Augé developed high-performance skincare which offers, **according to its specific needs**, its necessary moisturizing, energizing and nourishing elements.
